Abstracts and Presentations: 1995-Present

**ISHLT, San Francisco, CA, April 1995**

Predicting Outcome Following Listing for Cardiac Transplantation in Children: Comparison of Kaplan-Meier and Parametric Competing Risk Analysis

Outcome of Listing for Cardiac Transplantation in Infants (age <6mos): Predictors of Death & Interval to Transplant

Risk Factors for Pre-transplant Outcome in Children Listed for Cardiac Transplantation: A Multi-institutional Study

**AHA, Anaheim, CA, November 1995**

Outcome of Cardiac Transplantation in Children: Survival in a Contemporary Multi-institutional Experience

**ISHLT, New York, NY, March 1996**

Infection after Pediatric Heart Transplantation: A Multi-institutional, Multivariable Analysis

Allograft Rejection Following Cardiac Transplantation in Infants and Children: A Multi-institutional Study

**ACC, Orlando, FL, March 1996**

Survival and Risk Factors for Death after Cardiac Transplantation in Infants: A Multi-institutional Study

Abstracts and Presentations: 1995-Present

The Third Loma Linda International Conference on Pediatric Heart and Lung Transplantation, January 1997

Outcomes Analysis: The Pediatric Heart Transplant Study Group (PHTS)

Induction Immunotherapy in Pediatric Heart Transplant Recipients: A Multi-Institution Evaluation

ISHLT, Chicago, IL, April 1998
Death after Rejection with Severe hemodynamic Compromise in Pediatric Recipient

Preventing Cytomegalovirus Infection (CMV) in Pediatric Heart Transplant Recipients: Does Prophylaxis Work?

ISHLT, San Francisco, CA, April 1999
Death after Transplantation in Children: Who Dies When and Why?

Outcome of Listing for Cardiac Transplantation for Failed Fontan: A Multi-institutional Study

Late Rejection Greater Than 1 Year After Pediatric Heart Transplantation: An Ominous Finding

AHA, Atlanta, GA, November 1999
Fate of Infants with Hypoplastic left Heart Syndrome Listed for Cardiac Transplant: A Multi-center Study
Abstracts and Presentations: 1995-Present

**ISHLT, Osaka, Japan, April 2000**

**Graft Failure After Heart Transplantation in Children: A Six Year Multi-Center Experience**

**Risk Factors for Recurrent Rejection in Pediatric Heart Transplantation: A Multicenter Experience**

**International Transplant Nurses Society, Las Vegas, NV, September 2000**

**Pediatric Outcomes: Outcomes of the Pediatric Heart Transplant Study**

**ISHLT, Vancouver, British Columbia, April 2001**

**Interaction of Volume and Era on Survival of Children Listed For Cardiac Transplantation**

**Death After Cardiac Transplantation in Low Birth Weight Neonates**

**ISHLT, Washington, D.C., April 2002**

**Linear and somatic Growth Following Pediatric Heart Transplantation**

**Hyperlipidemia in Children After Cardiac Transplantation**

**AHA, Chicago, IL, November 2002**

**Post-Transplant Lymphoproliferative Disorders: Experience with 56 Cases at 19 Pediatric Heart Transplant Centers**

**The Incidence and Impact of Transplant Coronary Artery Disease in Pediatric Recipients: A 9 Year Multi-Institutional Study**
Abstracts and Presentations: 1995-Present

**IPTA, Rio de Janeiro, Brazil, April 2003**

**Role of Early T-Cell Depletion with Thymoglobulin in Pediatric Heart Recipients. The Pediatric Heart Transplant Study (PHTS)**

**Lessons Learned from the Pediatric Heart Transplant Study Group**

**ISHLT, San Francisco, CA, April 2004**

**Outcome of Listing for Cardiac Transplantation for Failed Fontan: A Follow-up Multi-Institutional Study**

**Panel-Reactive Antibody Cross-Reactivity and Outcomes in the Pediatric Heart Transplant Study Group**

**Cytomegalovirus (CMV) Prophylaxis and Infection in Pediatric Heart Transplant Recipients**

**Late Outcomes After Heart Transplantation in Adults with Congenital Heart Disease: A Multi-Institutional Analysis**

**ACC, Orlando, FL, March 2005**

**The Effect of Age, Diagnosis, and Previous Surgery in 488 Children and Adults Who Undergo Heart Transplantation for Congenital Heart Disease**
Lamour J, Kanter, K, Naftel D, Chrisant M, Morrow R, Clemson B, Kirklin J, the Pediatric Heart Transplant Study and the Cardiac Transplant Research Database.
Abstracts and Presentations: 1995-Present

**ISHLT, Philadelphia, PA, April 2005**

**Outcome of Children Bridged to Transplant with Ventricular Assist Devices: A Multi-Institutional Study**

Blume E, Naftel D, Bastardi H, Duncan B, Kirklin J, Webber S, and the Pediatric Heart Transplant Study.

**Sudden Cardiac Death Prior to Pediatric Heart Transplantation: Would Implantable Defibrillators Improve Outcome?**

Rhee E, Canter C, Basile S, Naftel D, and the Pediatric Heart Transplant Study

**Should Status II Patients Be Removed From the Pediatric Heart Transplant Waiting List: A Multi-Institutional Study**

**Adjunctive Mycophenolate vs. Azathioprine for Prevention of Rejection in Pediatric Heart Transplant Recipients**

**Have Changes in UNOS Status System Improved Allocation in Pediatric Heart Recipients?**

**ISHLT, Madrid, Spain, April 2006**

**Epidemiology, Risk Factors, and Outcomes of Fungal Infections in Pediatric Heart Transplant Recipients**

**Cardiac Retransplantation in Pediatrics: A Multi-Institutional Study**

**To Vaccinate or Not to Vaccinate: Results of the Pediatric Heart Transplant Study (PHTS) Vaccination Study**

**Improved Rejection Free Survival with Adjunctive Mycophenolate vs Azathioprine in Pediatric Heart Transplant Recipients**

Abstracts and Presentations: 1995-Present

**ISHLT, San Francisco, CA, April 2007**

Outcomes of Pneumocystis jiroveci pneumonia infections in Pediatric Heart Transplant Recipients

**AHA, Orlando, FL, November 2007**

Clinical Factors associated with UNOS Status and outcome after listing for heart transplantation in children with dilated cardiomyopathy.

Outcomes of Children with Cardiomyopathy Listed for Heart Transplant: A Multi-Institutional Study

**ISHLT, Boston, MA, April 2008**

Serum Creatinine is a Limited Indicator of Renal Function in Pediatric Heart Transplantation

Outcomes of Pediatric Patients with Hypertrophic Cardiomyopathy Listed for Transplant

Dilated Cardiomyopathy and Listing for Heart Transplantation: A Multi-Institutional Study

Pediatric Heart Transplantation: 14 Years of Improving Results Illustrated by Patient Specific Predictions.

   Naftel D, Kirklin J, Hsu D, Blume E, Webber S, Morrow W, Canter C.

Outcomes of Children with Restrictive Cardiomyopathy Listed for Heart Transplant: A Multi-Institutional Study

Abstracts and Presentations: 1995-Present

Association of Left Ventricular Dilation at Listing for Heart Transplant With Post-Listing and Early Post-Transplant Survival in Dilated Cardiomyopathy

AHA, New Orleans, LA, November 2008
The Impact of Heart Failure Severity at Time of Listing for Cardiac Transplantation on Short and Long Term Stability with Pediatric Cardiomyopathy.

ACC, Orlando, FL, March 2009
Sudden Death After Pediatric Heart Transplantation: Analysis of Data From the Pediatric Heart Transplant Study (PHTS)

ISHLT, Paris, France, April 2009
Heart Transplantation Survival in Infants with Congenital Heart Disease with and without Prior Surgery: A Multi-Institutional Study

Decline in Rejection in the First Year after Pediatric Cardiac Transplantation: A Multi-Institutional Study

Outcomes Following Listing for Primary Transplantation for Infants with Unoperated Non-Hypoplastic Left Heart Syndrome (Non-HLHS) Congenital Heart Disease: A Multi-Institutional Study

Does Cytomegalovirus Serology Impact Outcome Following Pediatric Heart Transplantation?

Association of Socioeconomic Status with Graft Failure in Pediatric Heart Transplant Recipients

Updated 2/27/17
Page 7 of 15
Abstracts and Presentations: 1995-Present

**AHA, Orlando, FL, November 2009**

**Rejection with Hemodynamic Compromise in the Current Era of Pediatric Heart Transplantation: a Multi-institutional Study**

**When Pediatric Heart Transplant Recipients Become Adults- Does Transition to Adult Care Affect Outcomes?**

**ISHLT, Chicago, IL, April 2010**

**Use of Induction Agents and Incidence of Infection and Malignancy Following Pediatric Heart Transplantation**

**Comparison of Risk Factors and Outcomes for Pediatric Patients Listed for Heart Transplantation after Bidirectional Glenn and after Fontan: A Multi-Institutional Study**

**Risk Factors for Renal Dysfunction in Pediatric Heart Transplantation: A Multi-institutional Study**

**Minimizing Infection and Rejection Death: Clues Acquired from 17 Years of Multi-institutional Cardiac Transplantation Data**

**The Impact of HLA-G Polymorphism on Acute Rejection in Pediatric Heart Transplantation (Joint Project with SCCOR)**

Zeevi A, Brooks, Girnita, Ferrell, Chinnock R, Canter C, Addonizio L, Bernstein, Kirklin J, Naftel D, Webber S

**AHA, Chicago, IL, November 2010**

**Risks Associated with Allosensitization in Pediatric Heart Transplantation**

Mahle W, Naftel D, Foushee M, Rusconi P, Edens E, George J, Shaddy R

**Has Late Rejection Decreased in Pediatric Heart Transplantation in the Current Era? A Multi-institutional Study**

### ISHLT, San Diego, CA, April 2011

**Outcomes after percutaneous coronary artery revascularization procedures for allograft Vasculopathy in pediatric heart transplant recipients: A multi-institutional experience**  

**Hypoalbuminemia and Poor Growth Predict Worse Outcomes Post Heart Transplant in Children**  

**Donor Characteristics and Impact on Outcomes in Pediatric Heart Transplant Recipients**  

**ABO-incompatible heart transplantation in infants: Analysis of the Pediatric Heart Transplant Study (PHTS) database**  

**A 16-year multi-institutional study of the role of age and EBV status on PTLD incidence among pediatric heart transplant recipients**  

### IPTA, Montreal, Quebec, June 2011

**The role of age, EBV status and ERA on PTLD incidence in pediatric heart transplant recipients: a 16 year multi-institutional retrospective review**  

**Outcomes after percutaneous coronary artery revascularization procedures for allograft vasculopathy in pediatric heart transplant recipients: A multi-institutional experience**  

**Donor Characteristics and Impact on Outcomes in Pediatric Heart Transplant Recipients**  

**Hypoalbuminemia and Poor Growth Predict Worse Outcomes Post Heart Transplant in Children**  
Abstracts and Presentations: 1995-Present

**AHA, Orlando, FL, November 2011**

*Heart transplant after failed single ventricle palliation in young infants carries excess mortality risk: A multi institutional study*

*ECMO as a Bridge to Pediatric Heart Transplantation: Impact on Post-Listing and Post-Transplantation Outcomes*

Dipchand A, Mahle W, Tresler M, Naftel D, Kirklin J, Webber S

**Outcome of Fetal Listing for Heart Transplantation**

**ISHLT, Prague, Czech Republic, April 2012**

*Predicting 1-year survival in pediatric heart transplant candidates with cardiomyopathy: an analysis of the PHTS database*

*Predicting 1-year survival in pediatric heart transplant candidates with Congenital Heart Disease: an analysis of the PHTS database*

*Is adolescence an independent risk factor for rejection in pediatric heart transplantation, independent of age at listing?*

**Outcomes of Cardiac Transplantation in Single Ventricle Patients with Plastic Bronchitis—a Multi-Center Report**

**Cardiac Allograft Vasculopathy (CAV) in Children: an 18 year Pediatric Heart Transplant Study (PHTS) Analysis in 3120 patients**

Updated 2/27/17

Abstracts and Presentations: 1995-Present

A Multi-Institutional Evaluation of Antibody-Mediated Rejection Utilizing the PHTS Database: Prevalence, Therapeutic Approaches, and Outcomes
   Thrush PT, Pahl E, Naftel DC, Pruitt E, Everitt MD, Missler H, Zangwill SD, Burch M, Hoffman TM, Butts RJ, Mahle WT

Lymphoproliferative Disorders Late After Pediatric Heart Transplantation: A Multicenter Analysis

Hemodynamic Profiles in Children with End-Stage Heart Failure: Analysis of Data from the Pediatric Heart Transplant Study Group

AATS, Seattle, WA, April 2015
Outcomes of Heart Transplantation in Children with Hypoplastic Left Heart Syndrome Previously Palliated with the Norwood Procedure
   Alsoufi B, Mahle W, Manlihiot C, Deshpande S, Kogon B, McCrindle B, Kanter K

MWPCS, Peora, IL, September 2015
A Multi-Institutional Evaluation of Antibody-Mediated Rejection Utilizing the PHTS Database: Incidence, Therapies, and Outcomes
   Thrush PT, Pahl E, Naftel DC, Pruitt E, Everitt MD, Missler H, Zangwill SD, Burch M, Hoffman TM, Butts RJ, Mahle WT

ISHLT, Washington, DC, April 2016
Bacterial Infections Following Pediatric Heart Transplantation: Epidemiology, Risk Factors, and Outcomes

Cancer Recurrence and Mortality after Pediatric Heart Transplantation for Anthracycline Cardiomyopathy

Impact of Induction Therapy Type in High and Low Risk Pediatric Patients after Heart Transplant: Analysis of the PHTS Database
**Abstracts and Presentations: 1995-Present**

**Mechanical Support for Primary Graft Failure and Early Rejection in Pediatric Heart Transplantation**
Simmonds J, Kirklin JK, Pruitt E, Gupta D, Bohannan S, Zangwill S, Dodd D, Addonizio L

**Mechanical Circulatory Support as a Bridge to Transplantation in Children with Single Ventricle Physiology: A Multicenter Study**
Das B, Kirklin JK, Pruitt E, Daneman S, Lin K, Hong B, Chrisant M, Canter C

**Development and Validation of a Major Adverse Transplant Event (MATE) Score to Predict Graft Failure in Pediatric Heart Transplantation**

**The Impact of Age on the Incidence and Prevalence of Moderate to Severe Cellular Rejection Detected by Routine Surveillance Biopsy in Pediatric Heart Transplantation**

**Impact of Routine Surveillance Biopsy Intensity on the Diagnosis of Moderate to Severe Cellular Rejection and Survival After Pediatric Heart Transplantation**

**Hemodynamic Findings Associated with End-Organ Dysfunction in Children with End-Stage Heart Failure**

**Relationship between Hemodynamic Variables and NYHA/Ross Functional Capacity in Children with Advanced Heart Failure**

**AHA, New Orleans, LA, November 2016**

**Pediatric Heart Transplantation in Pre-Sensitized Recipients: A Current Perspective**

**New-onset Diabetes After Pediatric Heart Transplantation**
Abstracts and Presentations: 1995-Present

**ISHLT, San Diego, CA, April 2017**

**Association of Insurance Coverage on the Development of Coronary Allograft Vasculopathy after Pediatric Heart Transplant**

Pruitt E, Urschel S, Everitt MD, Kirklin JK, Naftel DC

**HLA Eplet Mismatching Is Associated with Increased Risk of Graft Loss in Pediatric Heart Transplant Recipients**

**Mechanical Circulatory Support (MCS) in Infants with Congenital Heart Disease listed for heart transplant – A PHTS Multicenter Experience**

**Hemodynamics of the Pediatric Failing Fontan**

**The long-terms outcomes of patients supported with the Berlin Heart EXCOR as a bridge to transplantation: A multi-institutional study**

**Post-Transplant Outcomes in Pediatric VAD Patients: A Pedimacs-PHTS Linkage Study**

Sutcliffe DL, Pruitt E, Cantor RS, Godown J, Lane J, Turrentine MW, Law SP, Lantz JL, Naftel DC, Kirklin JK, Bernstein D, Blume ED
