ISHLT, San Francisco 1995
Predicting Outcome Following Listing for Cardiac Transplantation in Children:
Comparison of Kaplan-Meier and Parametric Competing Risk Analysis
Heart Transplant Study Group.

Outcome of Listing for Cardiac Transplantation in Infants (age <6mos): Predictors of
Death & Interval to Transplant
Morrow R, Naftel D, Chinnock R, Canter C, Boucek M, Zales V, McGiffin D, Kirklin J, and
the Pediatric Heart Transplant Study Group.

Risk Factors for Pre-transplant Outcome in Children Listed for Cardiac Transplantation:
A Multi-institutional Study
Addonizio L, Naftel D, Fricker J, Morrow W, Kirklin J, McGiffin D, Dodd D, Bernstein D,
and the Pediatric Heart Transplant Study Group

AHA, Anaheim, November 1995
Outcome of Cardiac Transplantation in Children: Survival in a Contemporary Multi-
institutional Experience
Shaddy R, Naftel D, Gerard B, McGiffin D, Towbin J, Ring S, Pearce B, Addonizio L,
Kirklin J, Morrow W, and the Pediatric Heart Transplant Study Group.

ISHLT, New York, 1996
Infection after Pediatric Heart Transplantation: A Multi-institutional, Multivariable
Analysis
Schowengerdt K, Naftel D, Seib P, Pearce B, Addonizio L, Kirklin J, Morrow W, and the
Pediatric Heart Transplant Study Group.

Allograft Rejection Following Cardiac Transplantation in Infants and Children: A Multi-
institutional Study
Rotondo K, Naftel D, Boucek R, Canter C, McGiffin D, Pahl E, Chinnock R, Morrow R,
Kirklin J, and the Pediatric Heart Transplant Study Group.

ACC, Orlando, March 1996
Survival and Risk Factors for Death after Cardiac Transplantation in Infants: A Multi-
institutional Study
Canter C, Naftel D, Caldwell R, Chinnock R, Pahl E, Frazier E, Kirklin J, Boucek M,
Morrow R, and the Pediatric Heart Transplant Study Group.
