

ACCU- MEASURE STUDY

WHO:

- People with a Spinal Cord Injury or Spinal Cord Disease
- Ages 19-65 Years Old

WHAT:

- One 4 Hour Visit
- Measure body composition
- Earn \$50.00

WHY:

- Currently, there is not a tested way to accurately measure body composition in people with SCI/D. A tested accurate method may help healthcare practices be more specific to people with SCI/D.
