

RESIDENT SPOTLIGHTS:

CHARLIES XIE, PGY3

IVAN MORALES, PGY2

What you would do if you won the lotto: Bribe my co-residents so they won't kill me for dropping out and cutting our class size to 7

Future career goal: teleradiology while traveling the world

Favorite band/musical artist: Thomas Rhett

Favorite food/drink: burgers and pineapple Fanta

How you like to spend your weekends off: Going out of town

Hidden talent: falling asleep anywhere

Last show you watched: Game of Thrones

Hometown: Nashville, Tennessee

Story behind your interesting first name:

My parents misspelled Charles, which sounds closer to Charlies in the Chinese Anglicization of the name.

If not a radiologist, Charlie would be a computer engineer.

What you would do if you won the lotto: Take friends on a Caribbean/Mediterranean sailing trip on my new 51' monohaul

Future career goal: wire wiggler / catheter jockey

Favorite band/musical artist: Boston

Favorite food/drink: Steak au Poivre. Mojito. But not together.

Why is it E-van and not I-van?: My parents are from Puerto Rico, and it's pronounced ee-von in Spanish (and Russian). I've come to accept eye-van over time though.

If not a radiologist, Ivan would be an excavator operator or automotive engineer.

How you like to spend your weekends off: working on the car, being bad at golf

Hidden talent: mad foosball skills

Last show you watched: Grand Tour on Amazon

Hometown: born in Atlanta, raised in Peachtree Corners outside Atlanta
