

## **Top Ten Faculty Award for Excellence in Resident Education**

**January 2016 – June 2016**

- 
- Determined by the average of faculty evaluation scores completed by residents and fellows.

## ABDOMINAL IMAGING

David N. Bolus, M.D.

### Evaluation Comments:

- Great radiologist and teacher!
- Dr. Bolus was great with his patients and a good teacher.
- A great teacher and outstanding radiologist! I Always look forward to the opportunity to work with Dr. Bolus.

## MOLECULAR IMAGING AND THERAPEUTICS

Eva V. Dubovsky, M.D., Ph.D.

### Evaluation Comments:

- Excellent teacher! One of the best at UAB! Thank you!
- Very much appreciate the teaching sessions!
- The best teacher I have ever had, at any level!!! And an inspiring role model as a person. Thank you for all that you do for patients and residents alike, Dr. Dubovsky!
- Dr. Dubovsky is the best teacher in the entire radiology department, and no one is better to work with. It is obvious that she genuinely cares about the residents and resident education, and we all greatly appreciate that.

## ABDOMINAL IMAGING

### Evaluation Comments:

- He provides a lot of autonomy and is constantly teaching and giving constructive feedback. I look forward to working with him again.
- Dr. Lockhart is an outstanding teacher and an example of how to manage the workroom and workflow with efficiency and tact. Always most professional and commands the literature as well as any radiologist I have encountered to date, he is an excellent role model for aspiring radiologists like myself.

Mark E. Lockhart, M.D., M.P.H.

## ABDOMINAL IMAGING

### Evaluation Comments:

Desiree E. Morgan, M.D.

- I like her teaching style a lot and the amount of autonomy she allows. I also like how she rarely changes dictations simply to reword like other attendings do for all dictations even if the findings are completely unchanged. It makes me feel like the work I put in early in the morning reading the GI radiograph list isn't thrown away when a report is completely reworded for the exact same finding.
- Great understanding of reading body MRIs.
- Great working with Dr. Morgan; always takes the time to go over every case with you which is a rarity on TKC CT. Gives you feedback on your performance which is always appreciated. The teaching is obviously always great. Thanks Dr. Morgan

Evaluation Comments:

Veeranjaneyulu Prattipati, M.D.

- Dr. Vee was very patient with me during my first exposure to IR and I was immensely grateful that he took the time to review anatomy and explain the technique and tools we used.
- Working with Dr. Vee is always great, his case conferences are excellent.
- I love his temporal bone lectures since we get so little pathology at UAB and lots at the VA.

## NEURORADIOLOGY

### Evaluation Comments:

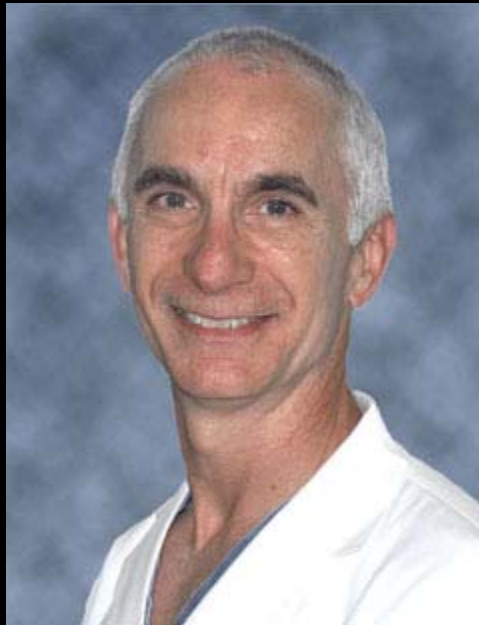

Glenn H. Roberson, M.D.

- Very experienced neuro attending. Always willing to help and enjoys teaching residents.
- Dr. Roberson brings a wealth of knowledge to the table and always is eager to teach. He makes a teaching point out of nearly every case, and as trainees, we really appreciate this. Also just as nice a gentleman as you will meet, it is always a pleasure to work with Dr. Roberson.
- Outstanding clinical radiology instructor who takes time to teach the residents. Goes over pertinent findings from each case with the residents, which is greatly appreciated.

## PEDIATRIC IMAGING

### Evaluation Comments:

Stuart A. Royal, M.S., M.D., F.A.C.R.

- Excellent teacher and regularly gives feedback. I look forward to working with him again.
- Awesome attending!
- Wish we got to work with Dr. Royal more!
- Good teaching and advice.

## ABDOMINAL IMAGING

### Evaluation Comments:

Rupan Sanyal, M.D.

- Dr. Sanyal is an excellent attending who gives residents autonomy.
- MR guru.
- Excellent teacher, very engaged with residents, and enjoyable to work with. Also provides copious amounts of free coffee.
- One of our best pure educators. Thanks Dr. Sanyal.

J. Kevin Smith, M.D., Ph.D.

Evaluation Comments:

One of the top teachers within the UAB radiology department. Understands deficits of each individual resident and tailors teaching to them. Can we clone him or at least get his twin brother?

Dr. Smith has a great attitude and takes time for teaching even when it is busy. I appreciated his feedback and availability.

Excellent attending. Explains concepts in a very helpful, "down to earth", easy to remember manner. Makes residents feel appreciated and part of the team. Truly cares about resident learning, as well as patient care.

## NEURORADIOLOGY

### Evaluation Comments:

Joseph C. Sullivan, III, M.D.

- Dr. Sullivan teaches us as often as he can by teaching through our mistakes and good cases he comes across. He is patient and never seems bothered by questions. He genuinely cares about our learning.
- One of the best teachers I've encountered yet in my radiology training! We are very fortunate to have Dr. Sullivan as part of the UAB Radiology Department. He is passionate about his craft and makes a concerted effort to teach residents at the workstation. We appreciate his efforts greatly!
- Dedicated to teaching.

## ABDOMINAL IMAGING

### Evaluation Comments:

- Dr. Tessler taught me lessons in efficiency and accuracy. I appreciated the time he took to pass on his knowledge of ultrasound.
- Brilliant radiologist. An honor to work with. Hopefully we will have a bit more time for teaching sessions at the reading station in the future to maximize the experience.
- Excellent teacher and radiologist!

Franklin N. Tessler, M.D., C.M.  
FAIUM, FSRU

## PEDIATRIC IMAGING

### Evaluation Comments:

Charles L. Torgerson, II, M.D.

- Goes out of his way to teach. Great radiologist.
- Dr. Torgerson is great to work with on pediatrics! He is always willing to teach and is approachable.
- I really enjoyed working with Dr. Torgerson! He always does a great job incorporating teaching into the work day.
- Excellent teacher and regularly gives feedback. I look forward to working with him again.

## ABDOMINAL IMAGING

### Evaluation Comments:

Jessica G. Zarzour, M.D.

- Excellent teacher and regularly shows saved cases during downtime.
- Enjoyable to work with and a great teacher. Fosters a great learning environment.
- Dr. Zarzour goes above and beyond the call of duty in regards to her advocacy for and desire to teach and convey knowledge to residents, and deserves commended for her efforts. We really appreciate you, Dr. Zarzour!!!
- Great to work with; provides great feedback and is very approachable with questions
