

Promotion and Tenure Attestation | UAB Surgery

UAB Surgery aims to help our faculty successfully advance along their career path. The promotion and tenure process is rigid and competitive. Having a complete and robust portfolio and full support from a candidate's division director leads to a higher likelihood of advancement.

All candidates seeking promotion and tenure must meet with their division director prior to submitting their packet for consideration.

During this meeting, candidates and division directors should discuss:

- Criteria for promotion
- Criteria for tenure
- Rescinding option to extend tenure for one year (COVID option)

Complete the attestation below and include this form in your Promotion and Tenure packet. **Packets for consideration are not complete unless this form is included.**

Candidate Name _____
