JOIN THE WORLD DATABASE!

Mission

As part of the mission of the World Society for Pediatric and Congenital Heart Surgery, the World Database for Pediatric and Congenital Heart Surgery has been developed and will be maintained for the purposes of furthering knowledge concerning the global practice and outcomes of pediatric and congenital heart surgery; fostering an environment of quality improvement in participating hospitals, without geographic constraints regarding eligibility for participation; and promoting scientific investigation and publication based on analyses of this world database, with collaboration among a wide array of international colleagues.

How can I enroll my hospital?

> Interested in learning more? Visit the link below and provide your contact information. A WDPCHS representative will reach out to you with more information.

26,926 Total Surgeries Entered*

*As of August 2020

Current Sponsors

“Help the practice of pediatric and congenital heart surgery extend its success throughout the world. We are all colleagues who desire the best for our patients. By joining the WDPCHS you will be participating in a global effort to improve the future for all infants, children and adults with congenital heart disease. The WDPCHS is beginning to provide global, regional, and local perspectives of how well we are serving our patients. Please join our effort to broaden these perspectives as well as assess your own program on the world stage.”
