Open to all students with at least Sophomore standing and 2.7 GPA. Enrollment requires permission of instructor and UAB Study Abroad Program Office.

Students will have many opportunities to engage in the local community by working with Ecuadorian health care providers in healthcare settings. They will present projects they have planned to women and children in communities or to health professionals. Students will also engage the community by meeting public officials to learn about the government and health care system of Ecuador. A collaboration of UAB SON with SIFAT (Servants in Faith and Technology) will permit students to have contact with Ecuadorians in many settings: schools, churches, and other community groups. Students will stay in hotels and eat at the hotel and local restaurants.

3 semester hours; Drs. Ivey Associate Professor of Nursing
Prerequisites: Permission of Instructor

TENTATIVE Dates of Program: March 22-30, 2014
