This is the only 11-month master’s program of its kind in the Southeast! In less than one year – set yourself apart from everyone else!

**Learn from the best. Be the best.**
The Master of Science in Biomedical Health Sciences program enhances your value for admission into medical, dental, optometry, physician assistant, physical therapy, occupational therapy and other health related professions schools.

Just ask Lauren Gibbs (MSBHS, 2016) who is now at the David Geffen School of Medicine at UCLA. That is Lauren pictured above at her White Coat ceremony. Picture yourself in the future and know that the UAB MSBHS degree can help improve your MCAT, DAT, OAT and GRE scores. Come see us to learn more!
