Protect Yourself | **Video Library** | **Phishing** | **Toolkit**

Security is a team effort:
PROTECT YOURSELF. PROTECT US ALL.

UAB IT Information Security provides the defensive barrier to protect us all. As users fall prey to attack attempts, allowing attackers alternate access, our defensive barrier can be temporarily **compromised**, leaving our network, your information and your life's work **vulnerable**. Arm yourself with security knowledge to protect yourself and protect us all.

UAB IT's [information security awareness page](#) gives you practical tips and guidance on UAB policies.

The video library contains short videos with practical advice for staying secure.
