Tuesday Tip

How to Add Question Bank Questions to Exams

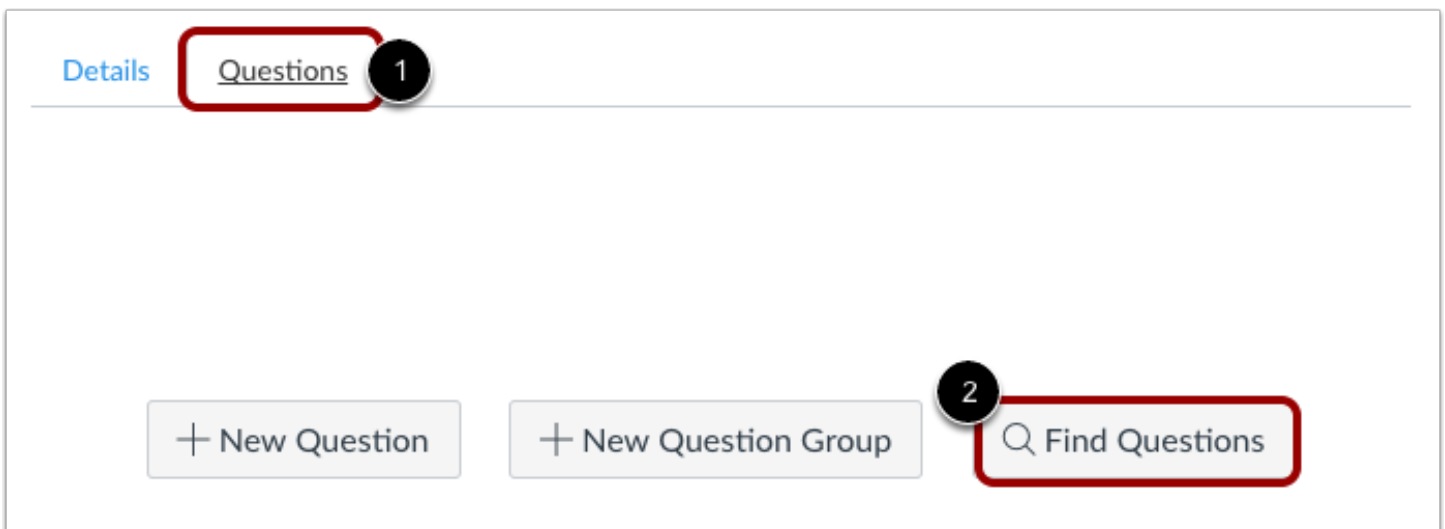

There are two ways to add question bank questions to a quiz.

1. [Linking to a question bank](#).

However, this will guarantee that you will NOT be able to regrade questions should the need arise.

2. Finding questions in a question bank.

This is our recommendation for adding quiz questions from a question bank. Once you have created the quiz, click on the **Questions** button and then, **Find Questions**:

When the list of question banks appears, select the correct one and then choose the questions you would like to add:

Find Quiz Question ×

EDT 201 Question Bank 2
Documentation Canvas, 2 questions

Evaluation Questions
Documentation Canvas, 3 questions

Final
M-101, 2 questions

Genetics
BIO-101, 5 questions

Genetics
BIO-101-2014, 5 questions

Select All | Clear All

Question 1
True or False.

Question 2
Testing Testing 1, 2, 3

Add questions to the question group:

[No Group]

Add Questions Cancel

NOTE: Adding questions to a group will scramble the questions, which can be completed at this stage. It can also be completed after questions are added to a quiz. If you have questions about how, why, or when to create question groups, please contact the IDS team at IDSHelp@uab.edu.

For more information, please contact the [IDS team](#).
