

Tuesday Tip

Regrading Quiz Questions

If you've ever had a quiz/exam question you just wanted to delete after the exam, **DON'T DO IT!** Deleting questions that have already been answered will create a whole host of issues. Instead, you can choose to regrade the question. Not all question types can be regraded, but you can use the links below to learn to regrade these question types:

- [regrade Multiple Choice](#) questions
- [regrade True/False](#) questions
- [regrade Multiple Answers](#) questions

Here are the options for regrading (but please note that the first option is not available for multiple answer questions):

Regrade Options

Choose a regrade option for students who have already taken the quiz.
Canvas will regrade all your submissions after you save the quiz (students' scores MAY be affected).

Award points for both corrected and previously correct answers (no scores will be reduced)

Only award points for the correct answer (some students' scores may be reduced)

Give everyone full credit for this question

Update question without regrading

Cancel Update

NOTE: Quiz regrade does not apply to questions **linked** to a question bank since questions may be used in more than one quiz.

For more information, please contact the [IDS team](#).
