Tuesday Tip

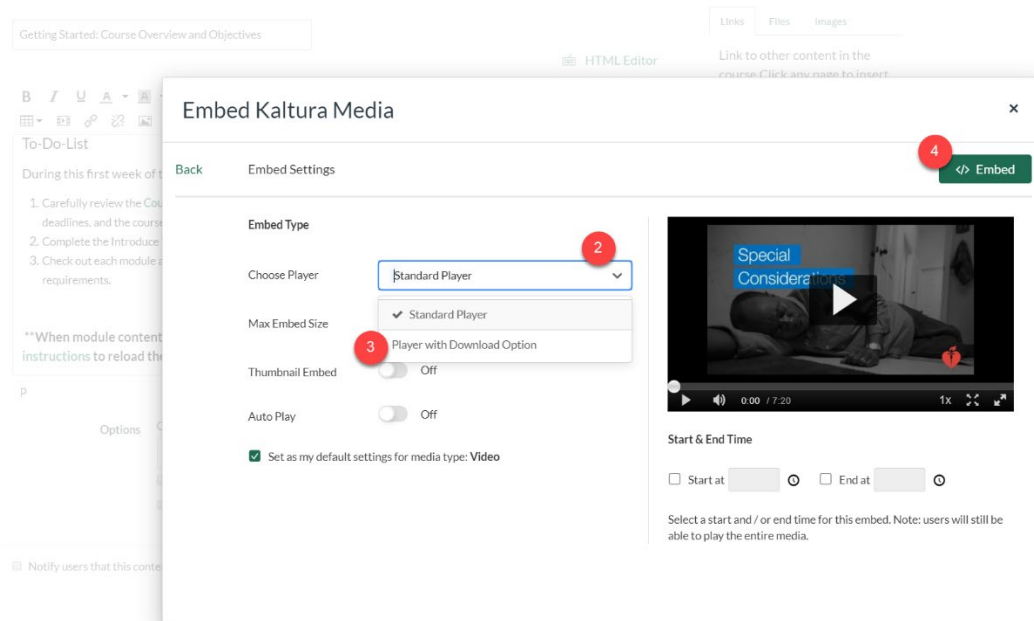

Steps for Downloadable Videos in Canvas

The newest version of Kaltura comes with a feature many instructors have been waiting for! You can now choose whether to allow students to download your lectures. Follow these steps below when embedding videos from Kaltura:

- 1) After selecting [Embed Kaltura Media](#) from the dropdown in the rich content editor, click on the settings wheel.

- 2) Click the dropdown menu next to Choose Player
- 3) Select "Player with Download Option"
- 4) Click Embed

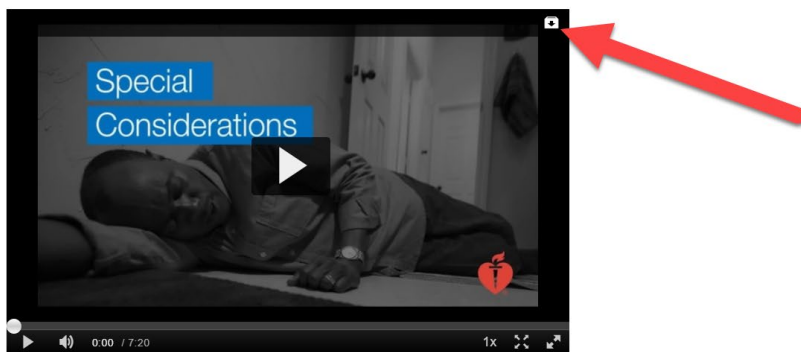

That's it! Your students will now see the option to download videos in the top right corner.

To-Do-List

During this first week of the course be sure that you do the following:

1. Carefully review the [Course Syllabus](#) to become familiar with the course objectives, assignments, grading criteria, deadlines, and the course schedule.
2. Complete the Introduce Yourself Discussion.
3. Check out each module and review the descriptions of the various assignments to become familiar with their requirements.

**When module content is occasionally blocked or does not display properly, please follow [these simple instructions](#) to reload the content.
