DEAN’S WELCOME MESSAGE

Welcome to the University of Alabama at Birmingham School of Health Professions! We are pleased you chose to join one of our many excellent programs, which in combination have established us as a national leader in health professions education.

We are home to one of the largest health professions schools in the nation with more than 30 programs at the certificate, baccalaureate, master’s, and doctoral levels, with more than 2,000 undergraduate and graduate students enrolled.

Moving into a post-COVID environment is a new start for everyone in health care, and you are in the best place to begin your personal journey toward joining this dynamic field. We are all committed to providing you a world-class education, and to support your pursuit of knowledge and your strong desire to serve others as a healthcare professional.

The pandemic has challenged all of us in many ways, and your entry into one of our professional programs demonstrates one of the most precious personal qualities one can have: resilience. That resilience has brought you here today and will continue to serve you well during your journey at UAB.

We recognize that healthcare needs - even outside of a pandemic - are constantly changing. That is why we continue to add innovative programs to our academic portfolio and to enhance and revitalize ongoing programs. We also offer graduate programs you will only find in Alabama at UAB, such as Genetic Counseling, Nuclear Medicine and Molecular Imaging, Low Vision Rehabilitation, Health Physics, Healthcare Quality and Safety, doctoral-level Rehabilitation Science, and Biomedical and Health Sciences.

Our degrees and programs are fully accredited by their respective professional organizations. This means you will be eligible for licensure, national certification or registrations and enjoy being in high demand within the job market. Our first-time student exam pass rate on many credentialing exams is an astounding 98 percent or higher.

Graduating from the School of Health Professions means you will acquire an esteemed degree, have a host of job opportunities in healthcare – an industry that continues to grow rapidly – and be well prepared to make a difference in your community. We look forward to maintaining our relationship with you when you join our alumni community.

Our alumni give advice to current students that is worth repeating: “learn your craft, be a better professional for your patients, be open minded to future possibilities, and remember to have a healthy work/life balance”.

I look forward to seeing you grow in your respective fields and watching you become the leader we know you can be.

OVERVIEW OF THE SCHOOL OF HEALTH PROFESSIONS

A leader in federally funded research, the UAB School of Health Professions (SHP) is one of the largest academic institutions of its type in the United States and currently boasts several nationally ranked programs. What began in the 1950s as a collection of training programs in various para-professional disciplines has grown into an internationally recognized center of academic excellence.

The SHP initially took shape in 1969 as UAB gained autonomy within the University of Alabama System. Originally christened the School of Community and Allied Health Resources (SCAHR), the school incorporated the School of Health Services Administration and the Division of Allied Health Sciences from the College of General Studies with parts of the Department of Public Health and Epidemiology from the medical school. An innovative facility designed to meet the growing needs of the health care industry, the SCAHR was divided into four academic divisions that functioned like regular academic departments: Health Services Administration, Public Health and Environment, Allied Health Sciences, and the Regional Technical Institute for Health Occupations.

Throughout the 1970’s and 80’s the school’s offerings were amended to reflect the changing health care industry. As a result of the changes, SCAHR became the School of Public and Allied Health (SPAH). Next it became the School of Community and Allied Health (SCAH) and later the School of Health Related Professions (SHRP). During this time, the school added several new areas of study including a nationally ranked program in Nutrition Sciences. Through the leadership and guidance of early visionaries, the school experienced unparalleled success, which continues to date.

Today, the School of Health Professions is comprised of more than 30 programs – at the certificate, baccalaureate, master’s, and doctoral levels – across five academic departments: Clinical and Diagnostic Sciences, Health Services Administration, Nutrition Sciences, Occupational Therapy, and Physical Therapy. The school is housed in three buildings, the Susan Mott Webb Nutrition Sciences Building, the Learning Resource Center Building (LRC), and the School of Health Professions Building (SHPB).

With more than 2,200 faculty, staff, and students, SHP is one of six schools comprising the world-renowned UAB Academic Health Center. Students have access to vast academic resources, state-of-the-art facilities, and progressive research.

SHP is proud of many accomplishments including:

- U.S. News & World Report ranks SHP programs in the nation’s top 25.
- Research funding is over $14 million and growing.
- The school is at the top of the list in research funding from the National Institutes of Health for schools of its type and has been either first or second in funding received since 1969.

Under the current leadership of Dean Andrew Butler, the school has never been stronger or better positioned as a national leader in health professions education.

ATTENDANCE

Class attendance is expected in all SHP programs. Specific class, laboratory, or clinical site attendance requirements may be more stringent than university guidelines. Refer to the program requirements in this handbook and in course syllabi for policies. The UAB attendance policy is as follows:

The University of Alabama at Birmingham recognizes that the academic success of individual students is related to their class attendance and participation. Each course instructor is responsible for establishing policies concerning class attendance and make-up opportunities. Any such policies, including points for attendance and/or participation, penalties for absences, limits on excused absences, total allowable absences, etc., must be specified in the course syllabus provided to students at the beginning of the course term. Such policies are subject to departmental oversight and may not, by their specific prescriptions, negate or circumvent the accommodations provided below for excused absences.

The University regards certain absences as excused and in those instances requires that instructors provide a reasonable accommodation for the student who misses assignments, presentations, examinations, or other academic work of a substantive nature by virtue of these excused absences. Examples include the following:

- Absences due to jury or military duty, provided that official documentation has been provided to the instructor in a timely manner in advance.
- Absences of students registered with Disabilities Services for disabilities eligible for “a reasonable number of disability-related absences” provided students give their instructors notice of a disability-related absence in advance or as soon as possible.
- Absences due to participation in university-sponsored activities when the student is representing the university in an official capacity and as a critical participant, provided that the procedures below have been followed:
  - Before the end of the add/drop period, students must provide their instructor a schedule of anticipated excused absences in or with a letter explaining the nature of the expected absences from the director of the unit or department sponsoring the activity.
  - If a change in the schedule occurs, students are responsible for providing their instructors with advance written notification from the sponsoring unit or department.
- Absences due to other extenuating circumstances that instructors deem excused. Such classification is at the discretion of the instructor and is predicated upon consistent treatment of all students.
- Absences due to religious observances provided that students give faculty written notice prior to the drop/add deadline of the term.

In these instances, instructors must give students the opportunity to complete assignments in a way that corresponds as much as possible to the nature, scope, and format of the original. Options may include making up exams or other assignments, rescheduling student classroom presentations, or arranging for early or late submission of written assignments. The course make-up policy should be included in the syllabus.
BACKGROUND CHECK

Students in SHP programs are required by policy to undergo a background check using the school’s approved vendor, CastleBranch, at the time of program admission, and again, prior to placement in a fieldwork placement (clinical, internship, practicum, residency, etc.). Additional checks may be required by the individual sites therefore, students should work with the program to ensure compliance requirements are met. Instructions for requesting the background check are provided to students by their programs.

The Office of Academic and Faculty Affairs is responsible for ensuring student compliance throughout the program. Students found to be non-compliant will not be allowed to matriculate in the program (orientation, attend class, fieldwork placement, etc.) until all requirements are met. Program Directors, Fieldwork Coordinators, and students will be notified of non-compliance and a hold will be placed on the student’s account.

BACKGROUND CHECK AND DRUG SCREEN POLICY

With the exceptions noted below, students admitted to clinical and non-clinical programs in the School of Health Professions (SHP) will complete a routine criminal background check and drug screen using the approved vendor (CastleBranch). These screenings should be completed prior the first term of enrollment. Subsequent routine criminal background checks and drug screens using the approved school vendor will be completed prior to fieldwork placement (clinical, internship, practicum, residency, etc.).

Students enrolled in SHP undergraduate programs will complete a learning module in the campus learning management system by the first semester of enrollment. If a fieldwork placement (clinical, internship, practicum, residency, etc.) is required, students must complete criminal background checks and drug screens prior to the first day of the semester of a fieldwork placement.

- Fees for these screenings will be the responsibility of the student.
- The rules and regulations governing individual fieldwork placement sites may include additional provisions and/or more stringent guidelines which supersede this policy. Fees for these screenings are the responsibility of the student.
- Should your criminal background check contain issues, or you fail a drug screen that may prevent you from receiving or sitting for board certification/licensure, a representative from the Office of Academic and Faculty Affairs will contact you. Depending upon the outcome, students will have a registration hold placed on their account until in compliance and this may result in being dismissed from the program. See program’s guidelines regarding specific consequences.

CODE OF CONDUCT

You are a graduate student in the Master of Science in Health Administration Program at The University of Alabama at Birmingham. Our mission is Developing leaders to shape tomorrow’s healthcare through an exceptional master’s-level educational experience. In keeping with this mission, we are committed to teaching you:

1. Health care functions and processes used by healthcare professionals.
2. Behavioral expectations that the healthcare world will have for you.

To be successful in your career, you will have to learn how to plan, organize and manage operations. You will have to know how to understand the complex health care delivery system, lead others in delivering quality patient care, understand financial statements, and know how to work in teams. Additionally, you will have to know how to conduct yourself in business settings. What you say, how you say it, how you dress, etc. will significantly affect your ability to secure employment as a professional and to succeed in your career. As faculty, it is our goal and responsibility to help you understand both the concepts of health care and the behavior that will help you excel in your career as a health care administrator. Health care is a unique field and it is our goal to “socialize” you into the profession while you are in our Program.

With these goals in mind, the MSHA faculty has established the following Code of Professional Conduct that is consistent with workplace expectations and followed in all MSHA classes.

1. ATTENDANCE AND CONTRIBUTION
   a. Attend all class meetings and other planned meetings (e.g. teams).
      i. Class meetings are considered normal work assignments. Failing to attend class is equivalent to missing a day’s work.
      ii. If you must miss a meeting, inform your instructor in advance (or as soon as is practical) of the reason for your failure to meet your obligation. If you become ill or have a legitimate reason to leave class early, inform your instructor of the circumstances.
   b. Be on time and don’t expect to leave early. Showing up late to work and “slipping away early” are unacceptable behaviors.
   c. Be prepared and participate meaningfully in all meetings.
      i. Be interested and be interesting to others in your class. Engage your instructor and peers in meaningful discussion of the class topics. In business meetings, participants must be engaged and make significant contributions.
      ii. Come to class prepared to contribute meaningfully in discussions. Class assignments are akin to business work assignments.
iii. Ask questions to seek understanding and answer questions to the best of your ability.

2. **PROFESSIONALISM AND DRESS CODE – Residential Only**
   a. Business casual dress is expected during classes and professional business attire when external speakers or projects are involved in the course.
   b. Neither hats nor caps should be worn in the classroom.
   c. Shirts with vulgar or unprofessional language or visual images are inappropriate. Clothing that is immodest or suited for parties, sporting events, and other social occasions, is not suited for business meetings.

3. **CLASSROOM PARTICULARS**
   a. Turn all cell phones off. If you anticipate an emergency call, set the phone to vibrate.
   b. The use of cell phones for talking and/or text messaging in class is not allowed.
   c. Electronic devices (laptops, PDA, iPads) are not allowed in the classroom except when everyone is required to use the technology.
   d. Passing notes and whispering in class are distracting and inappropriate in a professional setting.
   e. Avoid leaving the class for any reason. If you must depart, do not return.

4. **ACADEMIC INTEGRITY**
   a. Adhere to the MSHA policy on Academic Honesty and Integrity (detailed policy below). If you believe that you will have any difficulty fulfilling any of these expectations, please discuss with your instructor at the beginning of the semester.
   b. It is the student’s responsibility to both understand and comply with this Code of Conduct, SHP policy and all UAB policies. Violations to the Code of Conduct Policy will be addressed on a case by case basis. Consequences may include, but are not limited to:
      1. Counseling the student
      2. And/or dismissal from the Program

**ACADEMIC HONESTY AND INTEGRITY**

The graduate programs in Health Administration follow the University’s Academic Integrity Code.

**ACADEMIC PERFORMANCE**

To be in good academic standing in the Graduate School, a student must maintain a grade point average of at least 3.0 (on a 4.0 scale)

Students will be considered to be making satisfactory progress toward the MSHA degree if they follow the prescribed course sequence established by the Program. Students whose schedules vary from the sequence must discuss this variance with the Program Director.

Students who are admitted on probation must demonstrate their ability to perform at the level required for graduation by establishing good academic standing at the end of the first semester of full-
time academic coursework (i.e., at the completion of sixteen credit hours). Students who do not accomplish this level of performance will be dismissed from the Program and the UAB Graduate School.

A student who has been in good academic standing, but who at the end of any regular term fails to meet the criteria to continue in good academic standing (a 3.0-grade point average or better), will be placed on probation. Such a student must re-establish good academic standing within the next two regular terms of graduate study undertaken. Students who do not accomplish this level of performance will be dismissed from the Program and the UAB Graduate School.

A student, who receives three or more grades of "C", or any grades of "F" on any course taken in pursuit of the single MSHA degree or any coordinated degree programs established by the Program, including MSHI, MBA, MPH or other dual degree option courses as developed, will be dismissed from the MSHA Program.

No student may enter his/her administrative residency with a grade point average of less than 3.0 in academic coursework (required and elective) needed to complete the MSHA degree or any course in single or coordinated degree programs.

A student receiving a grade of “I” in a course has until the end of the following semester to remove the deficiency or the grade will be changed to an “F.” A student may not enter the administrative residency if any “I” grades for academic courses remain on his/her transcript.
