

# M.S. in Genetic Counseling Fellowship Offers Free Tuition

A partnership between the O'Neal Comprehensive Cancer Center at UAB and the UAB Schools of Medicine and Health Professions is offering a one-year post-graduation cancer genetic counseling fellowship that **will pay all of your graduate school tuition** in exchange for a four-year work commitment with the UAB Department of Genetics in the UAB Genetics Cancer Clinic.

## The Fellowship includes:

- Advanced clinical training, research and teaching opportunities in cancer genetics and genetic counseling after completion of the UAB Genetic Counseling graduate program.
- Tuition scholarship for M.S. in Genetic Counseling.
- Paid employment as GC assistant in UAB Genetics Clinic during graduate school.
- Educational stipend during fellowship year.
- Four-year employment commitment upon graduation to UAB Genetics Cancer Clinic including salary and benefits.
