OVERVIEW OF THE SCHOOL OF HEALTH PROFESSIONS

The UAB School of Health Professions (SHP) is one of the largest academic institutions of its type in the United States. What began in the 1950s as a collection of training programs in various para-professional disciplines has grown into an internationally recognized center of academic and research excellence.

Today, we have five academic departments – Clinical and Diagnostic Sciences, Health Services Administration, Nutrition Sciences, Occupational Therapy, and Physical Therapy – that are housed in four buildings: Susan Mott Webb Nutrition Sciences Building (WEBB), Learning Resource Center (LRC), the School of Health Professions Building (SHPB), and the Center for Biophysical Sciences and Engineering (CBSE).

We are proud of many accomplishments including:

- *U.S. News & World Report* ranks all eligible SHP programs in the nation's top 25.
- Research funding is at an all-time high of \$26+ million and growing.
- Nearly 10 of our programs you will only find in Alabama at UAB.

- Our school has never been stronger or better positioned as a national leader in health professions education. And this status will only grow stronger as we continue to welcome students like you.

All dates related to registration, payments of tuition and fees, drop/add dates, other administrative requirements, and official school holidays are recorded on the [UAB Academic Calendar](#).

ACADEMIC INTEGRITY CODE

The University established a new Academic Integrity Code effective August 23, 2021. This Code, which applies to undergraduate, graduate, and professional students as well as all academic activities, defines academic misconduct and outlines procedures for breaches of the code. The Academic Integrity Code process is managed by the Academic Integrity Coordinator (AIC). In the School of Health Professions, the AIC is the Associate Dean for Academic and Faculty Affairs, and the office is located in SHPB 660. [You can see the full text of the Academic Integrity Code online.](#)

Advisor and recruiter contact information can be found on the [Office of Student Services Website](#). Graduate student advising is provided through the SHP graduate programs.

AMBASSADORS

The SHP Ambassadors help to support the programs within the school that will impact recruitment and retention initiatives. [You can learn more about the SHP Ambassadors on their webpage.](#)

ATTENDANCE

Class attendance is expected in all SHP programs. Specific class, laboratory, or clinical site attendance requirements may be more stringent than university guidelines. Refer to the program requirements in this handbook and in course syllabi for policies. The UAB attendance policy is as follows:

The University of Alabama at Birmingham recognizes that the academic success of individual students is related to their class attendance and participation. Each course instructor is responsible for establishing policies concerning class attendance and make-up opportunities. Any such policies, including points for attendance and/or participation, penalties for absences, limits on excused absences, total allowable absences, etc., must be specified in the course syllabus provided to students at the beginning of the course term. Such policies are subject to departmental oversight and may not, by their specific prescriptions, negate or circumvent the accommodations provided below for excused absences.

The University regards certain absences as excused and in those instances requires that instructors provide a reasonable accommodation for the student who misses assignments, presentations, examinations, or other academic work of a substantive nature by virtue of these excused absences. Examples include the following:

- Absences due to jury or military duty, provided that official documentation has been provided to the instructor in a timely manner in advance.
- Absences for students who have approved disability-related absence accommodations through Disability Support Services may follow the reasonable number of absences outlined in their flex plan or as determined by the instructor. Students are responsible for notifying instructors of these and any other approved accommodations through their Notice of Accommodations letter.
- Absences due to participation in university-sponsored activities when the student is representing the University in an official capacity and as a critical participant, provided that the procedures below have been followed:
 - Before the end of the add/drop period, students must provide their instructor a schedule of anticipated excused absences in or with a letter explaining the nature of the expected absences from the director of the unit or department sponsoring the activity.
 - If a change in the schedule occurs, students are responsible for providing their instructors with advance written notification from the sponsoring unit or department.
- Absences due to other extenuating circumstances that instructors deem excused. Such classification is at the discretion of the instructor and is predicated upon consistent treatment of all students.
- Absences due to religious observances provided that students give faculty written notice prior to the drop/add deadline of the term.

In these instances, instructors must give students the opportunity to complete assignments in a way that corresponds as much as possible to the nature, scope, and format of the original. Options may include making up exams or other assignments, rescheduling student classroom presentations, or arranging for early or late submission of written assignments. The course make-up policy should be included in the syllabus.

BACKGROUND CHECK AND DRUG SCREEN POLICY

Students in SHP programs are required to undergo a background check and drug screen using the school's approved vendor, [Disa Healthcare Technology](#), at the time of program admission, and again, prior to placement in a fieldwork placement (clinical, internship, practicum, residency, etc.). Instructions for requesting the background check and drug screens are provided to students by their programs. Students in SHP undergraduate programs must complete a module on drug screening and background checks during their first semester. The module will be located in Canvas, UAB's learning management system.

The [SHP Office of Academic and Faculty Affairs](#) is responsible for ensuring student compliance with the Background Check and Drug Screen Policy throughout the program. Students found to be non-compliant with this policy will not be allowed to matriculate in the program (orientation, attend class, fieldwork placement, etc.) until all requirements are met. - Fees for these screenings will be the responsibility of the student.
- The rules and regulations governing individual fieldwork placement sites may include additional provisions and/or more stringent guidelines which supersede this policy. Fees for these screenings are the responsibility of the student.
- Should your criminal background check contain issues, or if you fail a drug screen that may prevent you from receiving or sitting for board certification/licensure, a representative from the Office of Academic and Faculty Affairs will contact you. Depending upon the outcome, students will have a registration hold placed on their account until in compliance and this may result in being dismissed from the program. See your program's guidelines regarding specific consequences.

SECTION 3: PROGRAM SPECIFIC INFORMATION

GRADUATE CERTIFICATE IN PRIMARY CARE PHYSICAL THERAPY FOR UNDERSERVED POPULATIONS PROGRAM OVERVIEW

INTRODUCTION

PREAMBLE

Many areas in the United States, like most of Alabama, live in areas where access to physical therapy and primary care services are inadequate. The University of Alabama at Birmingham (UAB) Department of Physical Therapy is uniquely positioned within the university, state, and nation to further develop resources in medically underserved populations and for marginalized communities. The Department of Physical Therapy has been a leader in the physical therapy profession since its inception in 1964 and has demonstrated its ability to prepare physical therapists with advanced skills to meet the state's and national needs for rehabilitative and preventive care. The Graduate Certificate in Primary Care Physical Therapy for underserved populations is an innovative program that continues this legacy.

Recently, the APTA and other professional organizations are recognizing that physical therapists (PTs) possess a skill set that could help fill the void and provide access to healthcare for many underserved populations. This realization is bolstered by the success that PTs in the military have displayed as invaluable members of primary care teams in triaging and managing health conditions in military personnel and families. In addition, physical therapists are now practicing in emergency medicine teams as triage specialists for individuals presenting with musculoskeletal and balance impairments. Based on 24 these primary care practice models, PTs are "first contact providers" in primary care teams and demonstrate the ability to work interdependently and collaboratively with other health professionals. An alliance of faculty members representing multiple areas of specialization at UAB's DPT Program recognizes this need and plans to address the problem by introducing the Graduate Certificate in Primary Care Physical Therapy for underserved populations is tailored to prepare physical therapists to work as members of primary care teams with a skill set that enables them to be an entry point for patient/clients into the healthcare system. This advanced model of physical therapist practice is designed to increase access to preventive and rehabilitative holistic healthcare and foster physical therapists as valued members of interprofessional teams that promote health, disease prevention and management and community engagement in underserved populations and for marginalized communities.

To further facilitate the number of practicing primary care physical therapist, we developed this program to be easily accessed by licensed physical therapists and physical therapy students from accredited programs. This program is delivered online and mostly asynchronous which allow students to work on course work that will fit their schedules. For synchronous content, instructors will arrange the time that works best for most students and will keep synchronous content to a minimum.

DEFINITIONS

Primary Care Physical Therapy (PT) - Primary care teams provide integrated, accessible health care services by clinicians who are accountable for addressing a large majority of personal health care needs, developing a sustained partnership with patients, and practicing in the context of family and community. In the role of primary care PT, the clinician will be responsible for addressing movement system (health promotion, prevention, and impairment intervention) (Adapted the Institutes of Medicine 1984 definition of primary care).

Primary Care Team consists of a physical therapist, physician, mental health provider, and nursing. Other health care providers could include a physician extender (Physician Assistant or Nurse Practitioner) and Social Worker.

Underserved and Marginalized Populations - Underserved and marginalized populations include people who experience discrimination of any kind and encounter barriers (e.g., racial, ethnic, gender, sexual orientation, economic, cultural, and/or linguistic) to accessing public health and health care goods and services. They thus receive fewer and lower quality health care and public health goods and services; have a lack of familiarity with the health care delivery system; face a shortage of readily available providers and lack access to quality systems of care.
