MANDATORY STUDENT HEALTH PLAN

College life is stressful and expensive enough. Imagine the additional burden of unpaid medical bills hanging over your head. Often, it’s more than a student or family can handle. The dream of a college education or a promising career must be put on hold while the devastating expense of health care for the uninsured student takes priority.

The dream of a college education or a promising career must be put on hold while the devastating expense of health care for the uninsured student takes priority. The plan is very affordable and provides quality coverage for students and their dependents.

Many students over the age of 18 may not be covered by their parents’ policy away from home. Also, those covered by HMOs or PPOs may not have coverage for non-emergency related services when at school and outside the plan’s coverage area. The non-insured student is at risk for inadequate or no health care insurance at all.

Students in the following schools are required to subscribe to this Student Health Plan.

- School of Dentistry
- School of Optometry
- School of Nursing
- School of Public Health
- School of Joint Health Sciences
- School of Occupational Therapy
- School of Social Work
- School of Health Professions
- School of Public Health
- School of Nursing

- School of Dentistry

Students must be registered on the UAB official census day and must actively attend regularly-scheduled classes for at least the first 31 days after the date for which coverage is purchased. Home study, correspondence, television (TV) courses, and tutoring outside regularly-scheduled classes do not fulfill the requirements. Students enrolled in co-op programs outside the state of Alabama are not eligible for this plan.

Students who are registered regularly-scheduled classes do not fulfill the requirements. Students enrolled in co-op programs outside the state of Alabama are not eligible for this plan.

If you are hospital confined for at least 5 consecutive days, and if recommended by the attending physician, benefits will be paid up to $50,000 for the remains of the deceased’s body to his/her home country. (This does not apply to non-United States citizens.)
