HOUSING
FOR ALL

UAB Student Housing and Residence Life strives to create an inclusive living, learning community for all residents. We believe that safe housing is a right, and that every resident must be treated with dignity, respect and self-worth. We vow to create supportive and equitable environments, initiatives, events and programs. As stewards of UAB Student Housing and Residence Life, we will live out and role model behavior that aligns with the Blazer Way. We will not harass or make fun of anyone due to their race, gender, culture, faith, class, sexual orientation, disability, or any other difference. We take responsibility for our actions and will serve and support our students without bias, exclusion or discrimination. We challenge our residents to join us in doing the same.
