# EXTERIOR SIGNAGE GUIDELINES

JANUARY 2018

### TABLE OF CONTENTS

1.0	OVERVIEW	5
2.0	GRAPHIC STANDARDS	6
3.0	TYPE M - MONUMENT	7
4.0	TYPE B - BUILDING MOUNTED	18
5.0	TYPE S - SPECIALITY SIGNAGE	25

## 1.0 OVERVIEW

The UAB Exterior Signage Guidelines document establishes the standard for exterior signage on-campus for all facilities. The guidelines are an update and replacement for the Standard Campus Graphics and Signage System for the University of Alabama at Birmingham document prepared previously. The intent of the guidelines is provide direction for signage for new buildings and provide guidance for replacement of existing signage on campus. The review of all exterior signage proposals and implementation of new signage on campus is under the purview of the Office of Planning Design & Construction.

Due to the variation in building types, design characteristics, occupants and naming of facilities, the UAB campus is architecturally diverse. The intention of the guidelines is to provide general guidance for the placement of signage throughout the campus to foster a clear and unified signage system and reduce visual clutter. The guidelines provide flexibility to address each application while still applying an enterprise wide strategy.

The UAB Signage Guidelines primarily focuses on three types of signage applications, Monument, Building Mounted, Speciality signage.

All new applications will be reviewed on a case-by-case basis to review signage comprehensively to avoid over-signing each building and/or the surrounding grounds.

### 2.0 GRAPHIC STANDARDS

#### FONT TYPE

All standard exterior signage shall utilize Helvetica Medium. In general, all text shall be justified left. Refer to signage types for uppercase / lowercase direction. Helvetica medium

### Aa Bb Cc Dd Ee Ff Gg Hh Ii Jj Kk Ll Mm Nn Oo Pp Qq Rr Ss Tt Uu Vv Ww Xx Yy Zz 0 1 2 3 4 5 6 7 8 9

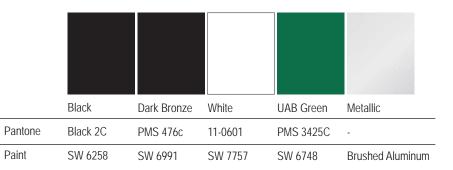

#### LOGO

Standard UAB logo is available online at UAB Brand Toolkit. https://www.uab.edu/brand/home/downloads/logo

#### COLORS & MATERIALS

Colors shown represent UAB's primary exterior sign colors and materials.

### 3.0 TYPE M - MONUMENT

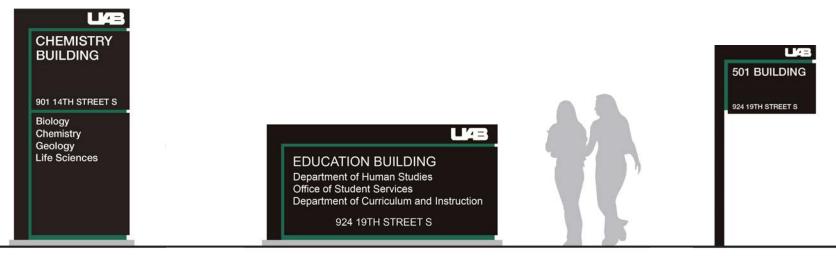

There are three standard Building Identification Monuments. All monuments are double sided. While several other options exist currently on campus, future applications would be limited to these standards. Variations to the monument signage within the Medical District are permitted.

Planting materials shall be limited in height so as not to obstruct the signage.

All new buildings shall be required to have a minimum of one Building Identification Monument. This sign type identifies specific destinations within UAB such as a building name and/or functions within a building. The monument shall be located so as to be visible from the street. For buildings that front a significant open space, such as the Campus Green, a second monument sign shall be located fronting that open space. Type M1 and M2 signs shall be lighted externally.

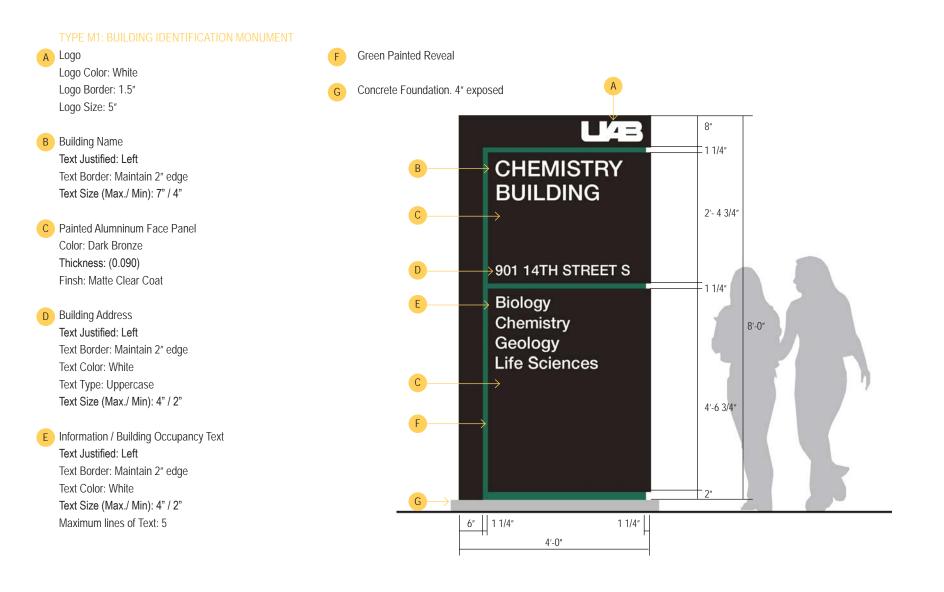

Secondary Building Identification Monuments (Type M3) shall be used for secondary entrances to facilities, such as a side street or parking lot. Type M3 monuments are also referred to as Flag Signs. Secondary monuments may be used as primary building signage on smaller buildings or buildings with minimal public interface. Type M3 monuments are generally not lighted.

All monument signage shall use matte white 3M vinyl machine cut lettering with Helvetica Medium text font.

- D 1 1/4" x 1 1/4" x 1/8" Alum. Tube
- E Steel Frame

#### TYPE M3: SECONDARY BUILDING IDENTIFICATION MONUMENT (FLAG)

## 4.0 TYPE B - BUILDING MOUNTED

There are three types of Building Mounted Signage at UAB. All new buildings are required to have Building Mounted Signage. Types include:

Type B1: Building Identification Signage

Type B2: Pedestrian Level Signage

Type B3: Primary Address Plaque

#### TYPE B1: BUILDING IDENTIFICATION SIGNAGE

It is the intent of these guidelines that each building at UAB will eventually be identified by Building Identification Signage. Building Identification Signage shall be placed to front the primary street. In cases of buildings fronting multiple streets or open spaces, additional signage is recommended. Building Identification Signage shall be located as close to the top of the building as possible. Location and placement shall be informed by the building's architectural elements. There are three general types of building names:

- Buildings Named for Honoree
- Buildings with College or School Naming
- Buildings with Administrative Naming

In cases where the building has an honoree name, the honoree name shall be listed before the name of the department and or/ occupants within the building. Building Identification Signage shall be limited to the buildings honoree name and/or primary departmental occupant.

#### **TYPE B1: BUILDING IDENTIFICATION SIGNAGE**

Location: Dependent on Building Size: Dependent on Location Logo Color: UAB Green Text: Left Justified Text Type: Uppercase Text Color: • Dark Building Material: Brushed Aluminum

Light Building Material: Black

Text Sizing:

- Building Name: 80% of Logo Height
- Secondary building name: 60% of Logo Height

#### Text Thickness: 2" Deep, Non-illuminated

Minimum Text Height: 8"

Naming:

- First Line: Building Name
- Second Line: Secondary Building Name (if applicable)

# HENRY PETERS BUILDING

Preferred

Alternate (stacked)

#### **TYPE B2: PEDESTRIAN LEVEL SIGNAGE**

Pedestrian Level Signage provides wayfinding at a pedestrian level. Types include Wall Mounted or Glass Located Signage. Wall Mounted Signage shall indicate the Building Name, Department and/or Administrative Naming, and building address. Glass Located Signage shall include Building Name and/or Department. Glass Located Signage may include additional information pertinent to the building user, such as hours of operation.

Pedestrian Level Signage shall be located at all primary building entrances and secondary entrances as deemed necessary. Buildings may incorporate both types of Wall Mounted and/or Glass Located Signage. Each application shall be reviewed with the Office of Public Relations and Marketing for compliance.

Type B1: Wall Mounted Identification (Large)

#### TYPE B2-L: WALL MOUNTED SIGNAGE (LARGE)

A Logo Logo Color: White Logo Border: 2" Logo Height: 4.5"

#### Building Name

Text Justified: Left Text Color: White Text Border: Maintain 2" edge Text Size: 1.8" Maximum Lines: 2 C Information / Building Occupancy Text Text Justified: Left Text Border: Maintain 2" edge Text Color: White Text Size (Max./ Min): 1.5" / 1.2" Maximum Lines of Text: 4

Painted Alumninum Face Panel Color: Dark Bronze / UAB Green Thickness: (0.090) Finsh: Matte Clear Coat E Building Address Text Justified: Left Text Border: Maintain 2" edge Text Color: White Text Type: Uppercase Text Size (Max.): 1.5"

F Trim Width: 0.25" Color: White

#### TYPE B2-S: WALL MOUNTED SIGNAGE (SMALL)

A Logo

Logo Color: White Logo Border: 1.5" Logo Height: 2.5"

Building Name

Text Justified: Left Text Color: White Text Border: Maintain 1.5" edge Text Size: 2" Maximum Lines: 2 Information / Building Occupancy Text Text Justified: Left Text Border: Maintain 1.75" edge (Left), 1.5" edge (Right) Text Color: White Text Size (Max./ Min): 1.5" / 1.2" Maximum Lines of Text: 4

С

Painted Alumninum Face Panel Color: Dark Bronze / UAB Green Thickness: (0.090) Finish: Matte Clear Coat E Building Address Text Justified: Left Text Border: Maintain 1.5" edge (Left to Right), 1" edge (Bottom) Text Color: White Text Type: Uppercase Text Size (Max.): 1.5"

F Trim Width: 0.25" Color: White

Logo Logo Color: UAB Green Logo Height: Varies Unit Wordmark - Primary

Text Color: White Text Height: Varies Text Justfied: Left Text Style: Uppercase \*Primary Wordmark should not exceed height of Logo

Unit Wordmark - Tertiary (Optional) С Text Color: White Text Height: Varies Text Justfied: Left Text Style: Lowercase

В

#### TYPE B3: PRIMARY ADDRESS PLAQUE

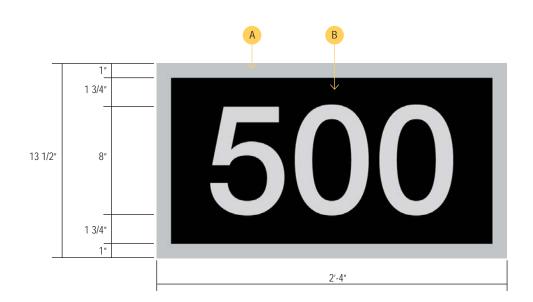

Each building is required to have an Address Plaque. The plaque shall be located at the building's primary pedestrian entrance. Mounted directly to the building. This plaque contains the building street number only.

Plaque to be 5/8" thick, cast aluminum

Buildings fronting multiple streets may require additional plaques.

 A Raised Numbers and Border
Color: Silvertone or Bronze (Color informed by building materials)
Address Text: 8 inches

B Background and return of letters Color: Black (Paint)

### 5.0 TYPE C - SPECIALITY SIGNAGE

There is an institutional desire to recognize significant donors and user groups within a building and/or special initiatives oncampus. Each case of specialty signage shall be reviewed on a case-by-case basis for need, appropriateness and location. While being respectful of special initiatives, over-signing a building can be detrimental to both the appearance of the building as well as negatively affecting the visual clarity of the campus.

Specialty signage on-campus can provide a needed wayfinding element for pedestrian and vehicular movement on-campus. In many cases, entrances to buildings on campus are not easily visible from the public right-of-way. However, additional signage shall be limited to directional signage and will need to show that it does not detract from the visual clarity of the space.

Free-standing signage shall meet the color and material requirements of the Monument Standards.

Specialty signage that is pole mounted, such as directional or parking lot signage located on UAB property, shall meet the Pole Mounted Signage (Type S1) requirements.

UAB reserves the right to remove any permanent or temporary signage within the campus without notice. Temporary advertising signage is strictly prohibited.

#### TYPE S1: POLE MOUNTED SIGNAGE

- A 14 Gauge 2" Square Tube Pipe Sanded, Primed and Painted with Rustproof Gloss Black Paint (Two Coats)
- B 2" Post Cap (No. 807, Lawler Foundary or Equivalent), Sanded, Primed, and Painted with Rustproof Gloss Black Paint (Two Coats)
- C Signs shall be standard signs (flat panel) 0.080 aluminum or 14 gauge steel flat panel. Signs shall be mounted on posts with galvanized fasteners.

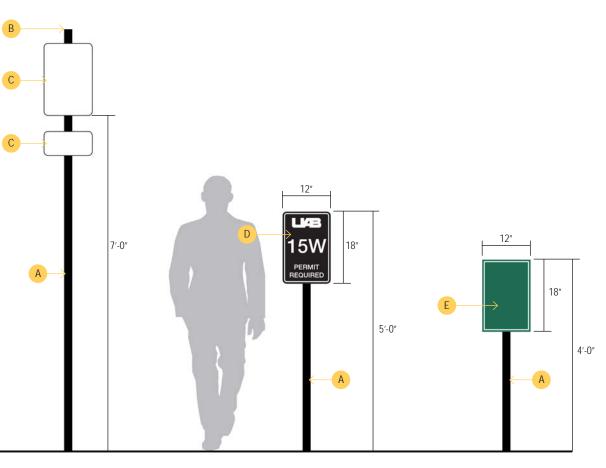

All striping, legends, markings and signage shall conform to ALDOT special and standard highway drawings and specifications, latest edition

#### D Color: Black

Trim: 1/4" White trim Logo: White Text: White Text Type: Uppercase Corners: 1/2" Rounded

### E Color: Black or UAB Green Trim: 1/4" white trim
