

CAMPUS ENTRY

COVID-19 Risk Mitigation/Safety Strategies

To promote a safe entry to campus this fall, UAB is planning several strategies to minimize risk while we deliver on our vital mission for those who count on us.

Some of those strategies include:

Availability of PPE and enforced social distancing

Mandatory **COVID-19 entry testing for students**

Hybrid instruction limits classroom size with **in-person/remote instruction options**

Mandatory COVID-19 safety training

Mandatory participation in Healthcheck, a COVID-19 assessment tool

Use of **exposure notification app technology**

Encouraged ongoing **COVID-19 sentinel testing**

Mask/face covering requirement

Enhanced cleaning practices

Distribution of two cloth masks to all students and employees

Informative and instructional **signage across campus**

Hand sanitizer stations across campus to promote hand hygiene

Foot traffic/volume control (limits on elevator, restroom, Blazer Express occupants)

Residence hall safety protocols, including limiting visitors

A residence hall dedicated to **support self-isolation and quarantine**

Safety protocols for safe dining, including take-out options

Marketing campaign encouraging actions to take to ensure community safety and well-being

More detail about these and other safety strategies, including frequently asked questions, is available at www.uab.edu/coronavirus and www.uab.edu/reentry.
