Subject: DOPM I.T. (Computer) Tip of the Week -- Internet Explorer and Safari: easy and faster

How to make **Internet Explorer and Safari: easy and faster**

Brought to you by
Bidoumoye Bokolo
(pronounced "Beo")
- one of the Student Techs in MT-
111
...with help from Rich

Do you know your browser (Internet Explorer and Safari) can make life easy and faster for you?
Check this out!!!

For PC Users, using Internet Explorer browser:

1. Press **Alt + D** or **Ctrl + L** to move the cursor into the address bar
2. Hold down the **Ctrl** key and **press the + or -** to increase and decrease the size of text. **Ctrl + 0** will reset the text.
3. Press the **backspace** key or press **Alt key + left arrow** to go back a page.
4. Press **F5** or **Ctrl + R** to refresh or reload a web page.
5. Press **F11** to make the Internet browser screen full screen. Press F11 again to return to the normal view.
6. Press **Ctrl + B** to open your Internet bookmarks.
7. Press **Ctrl + F** to open the find box to search for text within the web page you are reading.

For Mac Users, using Safari browser:

1. **CMD + L** to move the cursor into the address bar
2. Hold down the **CMD +** and **press the + or -** to to increase and decrease the size of text. **CMD + 0** will reset the text.
3. **CMD + left arrow** to go back a page.
4. **CMD + R** to refresh or reload a web page.
5. Press **Command + Ctrl + f** to go full screen full screen. Press again to return to the normal view.
6. Press **Command + Ctrl + 1** to open your Internet bookmarks.
7. Press **Command + F** to open the find box to search for text within the web page you are reading.

It makes life easy. Yay!!!!.

Was this helpful? Do you have suggestions for a future Tip of the Week? Do you have any other comments?
