Subject: Computer Tip of the Week -- How to zoom in on webpages

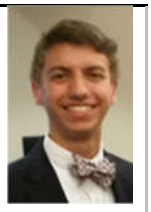
How to "zoom in" on webpages

(This is an **encore** Tip of the Week. Re-sending it because it's potentially so useful to so many people.)

Brought to you by

Andrew Whitfield

- one of the Student Techs in MT-403



SITUATION:

You're having a hard time seeing small text in your internet browser (such as Internet Explorer)

SOLUTION:

Experiment with your mouse wheel:
Hold the **Control** button down as you scroll with the mouse wheel.

Or….

- Control (or "Command" on Mac) plus "+" zooms in
- Control (or "Command" on Mac) plus "-" zooms out
- Control (or "Command" on Mac) plus "0" resets it to default

Was this helpful? Do you have suggestions for a future Tip of the Week? Do you have any other comments?
