**Subject:** Computer Tip of the Week -- Make your mouse more noticeable

## Make your mouse more noticeable

Brought to you by Lisa  
Schwaiger

- HelpDesk Triage and Computer Tech  
(in MT-403)

### SITUATION:

I sometimes find it mildly annoying that it's hard to see where my mouse is on my screen.

### SOLUTION:

- Go to [Start] or Globe on lower left
- Click [Control Panel]
- Click [Ease of Access Center]
- Click [Make the mouse easier to use]
- Click [Extra Large Inverting] ← feel free to play around with other options, but this is a good one
- [OK] and close

If interested, you can also see the Dec 14, 2017 Tip of the Week for more mouse visibility options.  
(The link to "Tip of the Week" archives is below.)

Was this helpful? Do you have suggestions for a future Tip of the Week? Do you have any other comments?
