Subject: Computer Tip of the Week -- Free Alternative to Photoshop

Free Alternative to Photoshop	Brought to you by Lisa Schwaiger - HelpDesk Triage and Computer Tech (in MT-403)
SITUATION:	
Sometimes I wish I had Photoshop, but I know it's expensive and I wouldn't use it enough to justify	
the expense.	
But I'd like to be able to do more than the basic Microsoft "Paint" lets me do.	
Is there a cheaper alternative, that's almost as good as Photoshop?	
SOLUTION:	
Yes, it's called GIMP, and surprisingly it's totally free.	
I did my image in this email using it. 😳	
If you need that for work purposes, we can install that for you. Just email us a request.
